	Where Do We Go from Here: Chaos or Community?	Dr. Martin Luther King Jr.	<p>n 1967, Dr. Martin Luther King, Jr., isolated himself from the demands of the civil rights movement, rented a house in Jamaica with no telephone, and labored over his final manuscript. In this prophetic work, which has been unavailable for more than ten years, he lays out his thoughts, plans, and dreams for America's future, including the need for better jobs, higher wages, decent housing, and quality education. With a universal message of hope that continues to resonate, King demanded an end to global suffering, asserting that humankind-for the first time-has the resources and technology to eradicate poverty.</p>		978-0807000670	L1 New to the Knowledge
	From Slaves to Oil: United States Role in the Plunder of Africa	David Model	<p>Famine, drought, internecine wars, corrupt leaders and culture have all been postulated as the cause of African underdevelopment despite its enormous wealth of resources.</p> <p>These myths are a smokescreen for the major causes of poverty, malnutrition, lack of amenities and death in Africa which has been the rapacious looting of the African continent for centuries by Western Powers. In the early twentieth century, King Leopold of Belgium slaughtered ten million Congolese in order to purloin rubber for the nascent automobile industry. One century later, United States, Belgium and France were responsible for the deaths of five million Congolese to gain free access to the vast riches of its resources such as gold, diamonds and, in particular coltan, an essential ingredient in electronic devices.</p> <p>This book explodes many of the myths about the fate of Africa which hide the truth about American and European interference in the development of the continent such as the context of the Black Hawk Down incident in Somalia, responsibility for the Rwanda Genocide, the origins of Boko Haram in Nigeria and its kidnapping of young girls and the real cause of the "humanitarian intervention" in Libya. The greater European advancement in military prowess, political organization, strong naval capabilities, particularly during the colonial era, in conjunction with the greed permeating European economic zeitgeist empowered first Europe then America to exploit the continent for cheap or free labor, bases, allies, markets, investments and resources. As a result of this exploitation, African nations are among the poorest on the planet, suffer the horrors of war on a regular basis, face the plight of hunger and disease more than anywhere else and lose more children before the age of five.</p>		978-1496919823	L1 New to the Knowledge

	Migrations of the Heart: An Autobiography	Marita Golden	<p>In her classic memoir, distinguished author, television executive, and activist Marita Golden beautifully recounts an astounding journey to Africa and back.</p> <p>Marita Golden was raised in Washington, D.C., by a mother who was a cleaning woman and a father who was taxi-driver. For all their struggles, with life and each other, her parents instilled her with spirit and aspirations. Swept up in the heady Black Power movement of the sixties, Marita moved to New York to study journalism at Columbia--and fell in love with Femi Ajayi, a Nigerian architecture student..</p> <p>Their passion led them to start a life together in Africa--a place Marita was eager to understand. Exhilarated by a world free of white racism, Marita quickly found work as a professor and embraced motherhood. But Femi's increasing expectations that she snap into the role of the submissive Nigerian wife were shocking and dispiriting. Her struggle to regain her footing and shape a black identity that was true to her spirit is suspenseful and inspiring, an uncommon tale of race, identity, and Africa.</p>		978-1400078318	L1 New to the Knowledge

	<p>Their Eyes Were Watching God</p>	<p>Zora Neale Hurston</p>	<p>One of the most important works of twentieth-century American literature, Zora Neale Hurston's beloved 1937 classic, <i>Their Eyes Were Watching God</i>, is an enduring Southern love story sparkling with wit, beauty, and heartfelt wisdom. Told in the captivating voice of a woman who refuses to live in sorrow, bitterness, fear, or foolish romantic dreams, it is the story of fair-skinned, fiercely independent Janie Crawford, and her evolving selfhood through three marriages and a life marked by poverty, trials, and purpose.</p>		<p>978-0061120060</p>	<p>L1 New to the Knowledge</p>

In his unapologetically candid voice, he moves from African ancestry and surviving the Middle Passage to the enjoyment of bacon and everything pig, the headline-making shootings of black men, and the Black Lives Matter movement. A captivating journey through time, <i>Defining Moments in Black History</i> explores historical movements such as The Great Migration and the Harlem Renaissance, as well as cultural touchstones such as Sidney Poitier winning the Best Actor Oscar for <i>Lilies in the Field</i> and Billie Holiday releasing <i>Strange Fruit</i>.</p>		<p>978-0062448712</p>	<p>L1 New to the Knowledge</p>
	<p>Assata: An Autobiography</p>	<p>Assata Shakur</p>	<p>On May 2, 1973, Black Panther Assata Shakur (aka JoAnne Chesimard) lay in a hospital, close to death, handcuffed to her bed, while local, state, and federal police attempted to question her about the shootout on the New Jersey Turnpike that had claimed the life of a white state trooper. Long a target of J. Edgar Hoover's campaign to defame, infiltrate, and criminalize Black nationalist organizations and their leaders, Shakur was incarcerated for four years prior to her conviction on flimsy evidence in 1977 as an accomplice to murder.</p> <p>This intensely personal and political autobiography belies the fearsome image of JoAnne Chesimard long projected by the media and the state. With wit and candor, Assata Shakur recounts the experiences that led her to a life of activism and portrays the strengths, weaknesses, and eventual demise of Black and White revolutionary groups at the hand of government officials. The result is a signal contribution to the literature about growing up Black in America that has already taken its place alongside <i>The Autobiography of Malcolm X</i> and the works of Maya Angelou.</p> <p>Two years after her conviction, Assata Shakur escaped from prison. She was given political asylum by Cuba, where she now resides.</p>		<p>978-1556520747</p>	<p>L1 New to the Knowledge</p>

	The Counter Revolution of 1776: Slave Resistance and the Origins of the United States of America	Gerald Horne	<p>The successful 1776 revolt against British rule in North America has been hailed almost universally as a great step forward for humanity. But the Africans then living in the colonies overwhelmingly sided with the British. In this trailblazing book, Gerald Horne shows that in the prelude to 1776, the abolition of slavery seemed all but inevitable in London, delighting Africans as much as it outraged slaveholders, and sparking the colonial revolt.</p> <p>Prior to 1776, anti-slavery sentiments were deepening throughout Britain and in the Caribbean, rebellious Africans were in revolt. For European colonists in America, the major threat to their security was a foreign invasion combined with an insurrection of the enslaved. It was a real and threatening possibility that London would impose abolition throughout the colonies—a possibility the founding fathers feared would bring slave rebellions to their shores. To forestall it, they went to war.</p> <p>The so-called Revolutionary War, Horne writes, was in part a counter-revolution, a conservative movement that the founding fathers fought in order to preserve their right to enslave others. <i>The Counter-Revolution of 1776</i> brings us to a radical new understanding of the traditional heroic creation myth of the United States.</p>		9781479806898	L1 New to the Knowledge

	<p>Empire of Cotton: A Global History</p>	<p>Sven Beckert</p>	<p>The empire of cotton was, from the beginning, a fulcrum of constant global struggle between slaves and planters, merchants and statesmen, workers and factory owners. Sven Beckert makes clear how these forces ushered in the world of modern capitalism, including the vast wealth and disturbing inequalities that are with us today.</p> <p>In a remarkably brief period, European entrepreneurs and powerful politicians recast the world's most significant manufacturing industry, combining imperial expansion and slave labor with new machines and wage workers to make and remake global capitalism. The result is a book as unsettling as it is enlightening: a book that brilliantly weaves together the story of cotton with how the present global world came to exist.</p>		<p>978-0375713965</p>	<p>L1 New to the Knowledge</p>

	PowerNomics: The National Plan to Empower Black America	Dr. Claude Anderson	<p>PowerNomics: The National Plan to Empower Black America is a five-year plan to make Black America a prosperous and empowered race that is self-sufficient and competitive as a group by the year 2005. In this book, Dr. Anderson obliterates the myths and illusions of black progress and brings together data and information from many different sources to construct a framework for solutions to the dilemma of Black America. In PowerNomics: The National Plan, Dr. Anderson proposes new principles, strategies and concepts that show blacks a new way to see, think, and behave in race matters. The new mind set prepares blacks to take strategic steps to create a new reality for their race. It offers guidance to others who support blacks self-sufficiency. In this book, Dr. Anderson offers insightful analysis and action steps blacks can take to redesign core areas of life - Education, Economics, Politics and Religion - to better benefit their race. The action steps in each area require new empowerment tools that Dr. Anderson presents - a new group vision and a new culture of empowerment - tools designed to counter, if not break many of the racial monopolies in society. Vertical integration and Industrializing black communities are other major concepts and strategies that he presents in the book. He places a great deal of importance on building industries in black communities that are constructed upon group competitive advantages. A the same time he announced the release of PowerNomics: The National Plan, he also announced that he has established several models of the strategies he proposes in the book. PowerNomics: The Plan, is infused with Dr. Anderson's trademark creative thinking and answers questions such as: - Why are blacks the only group that equates success with working in a White corporation, government or the entertainment industry? - How did power and wealth - businesses, resources, privileges, income and control</p>		978-0966170221	L2 Expanding the Knowledge

Why has Black America never been industrialized and how can it be done? - Why do visible blacks and black leaders avoid blackness, identifying the focus of their work instead for people of color, minorities, women, gays , the poor, Hispanics, and other immigrant groups? - What enables a constant stream of immigrant groups to politically, economically and socially dominate blacks? - In politics, how is it that blacks can be monolithic and loyal political supporters yet their group receives no quid pro quo benefits? - In his first book, Black Labor, White Wealth, Dr. Anderson examined history and showed how racism has locked and boxed blacks into a near permanent underclass. Picking up where Black Labor, White Wealth left off, PowerNomics: The National Plan is the missing link between the historical analysis of problems facing blacks and the strategies needed to correct those problems. Dr. Anderson's books are a phenomenon in the publishing industry. His work is distinguished because he has turned books that are serious, non-fiction, and heavy on black history, into best-sellers. 	The Mis-Education of the Negro	Carter G. Woodson	<p>The Mis-Education of the Negro is a book originally published in 1933 by Dr. Carter G. Woodson. The thesis of Dr. Woodson's book is that blacks of his day were being culturally indoctrinated, rather than taught, in American schools. This conditioning, he claims, causes blacks to become dependent and to seek out inferior places in the greater society of which they are a part. He challenges his readers to become autodidacts and to "do for themselves", regardless of what they were taught:</p> <p>History shows that it does not matter who is in power... those who have not learned to do for themselves and have to depend solely on others never obtain any more rights or privileges in the end than they did in the beginning.</p> <p>Here is a quote from the book:</p> <p>"When you control a man's thinking you do not have to worry about his actions. You do not have to tell him not to stand here or go yonder. He will find his 'proper place' and will stay in it. You do not need to send him to the back door. He will go without being told. Full facsimile of the original edition, not reproduced with Optical Recognition Software. After enjoying years as a popular journalist and poet, intellectual and freethinker, Gerald Massey turned his vast studies in the field of Egyptology into "A Book of the Beginnings," a bold statement that the origin of all civilization lays in ancient Egypt. His assertions, radical at the time, resonate to this day, when molecular biology is making corresponding discoveries alongside the still-raging creation-versus-evolution controversy. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including "The Natural Genesis" and "Ancient Egypt: The Light of the World." In volume one, Massey focuses on Egyptian origins in the British Isles. In the second volume, he explores the African/Egyptian roots of the Hebrews, the Akkado-Assyrians, and the Maori. By linking these diverse cultures and origins to their African roots, Massey demonstrates not only the extent of African influence but its durability as well.</p>		978-1614279471	L2 Expanding the Knowledge

	Dark Light Consciousness: Melanin, Serpent Power, and the Luminous Matrix of Reality	Dr. Edward Bruce Bynum	<p>How to awaken the Ureaus--the serpent power of spiritual transcendence within each of us--and connect to the superconscious of the universe</p> <ul style="list-style-type: none">• Reveals the biochemistry of how the body’s melanin provides the template for the subtle energy body or light body• Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious• Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureaus/Kundalini energy <p>Within each of us lies the potential to activate a personal connection to the superconscious. Called “Ureaus” in ancient Egyptian texts and “Kundalini” in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that enfold time, space, and the luminous matrix of reality itself.</p> <p>Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for transdimensional soul travel.</p> <p>By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. 	Blueprint for Black Power: A Moral, Political, and Economic Imperative for the Twenty-First Century	Dr. Amos Wilson	Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. 	Destruction of Black Civilization: Great Issues of a Race from 4500 B.C. to 2000 A.D.	Chancellor Williams	The Destruction of Black Civilization took Chancellor Williams sixteen years of research and field study to compile. The book, which was to serve as a reinterpretation of the history of the African race, was intended to be "a general rebellion against the subtle message from even the most 'liberal' white authors (and their Negro disciples): 'You belong to a race of nobodies. You have no worthwhile history to point to with pride.'" The book was written at a time when many black students, educators, and scholars were starting to piece together the connection between the way their history was taught and the way they were perceived by others and by themselves. They began to question assumptions made about their history and took it upon themselves to create a new body of historical research. The book is premised on the question: "If the Blacks were among the very first builders of civilization and their land the birthplace of civilization, what has happened to them that has left them since then, at the bottom of world society, precisely what happened? The Caucasian answer is simple and well-known: The Blacks have always been at the bottom." Williams instead contends that many elements—nature, imperialism, and stolen legacies—have aided in the destruction of the black civilization. The Destruction of Black Civilization is revelatory and revolutionary because it offers a new approach to the research, teaching, and study of African history by shifting the main focus from the history of Arabs and Europeans in Africa to the Africans themselves, offering instead "a history of blacks that is a history of blacks. Because only from history can we learn what our strengths were and, especially, in what particular aspect we are weak and vulnerable. Our history can then become at once the foundation and guiding light for united efforts in serious[ly] planning what we should be about now." It was part of the evolution of the black revolution that took place in the 1970s, as the focus shifted from politics to matters of the mind.		978-0883780305	L3 Specialized Knowledge

	The New Jim Crow: Mass Incarceration in the Age of Colorblindness	Michelle Alexander	<p>Once in a great while a book comes along that changes the way we see the world and helps to fuel a nationwide social movement. The New Jim Crow is such a book. Praised by Harvard Law professor Lani Guinier as "brave and bold," this book directly challenges the notion that the election of Barack Obama signals a new era of colorblindness. With dazzling candor, legal scholar Michelle Alexander argues that "we have not ended racial caste in America; we have merely redesigned it." By targeting black men through the War on Drugs and decimating communities of color, the U.S. criminal justice system functions as a contemporary system of racial control—relegating millions to a permanent second-class status—even as it formally adheres to the principle of colorblindness. In the words of Benjamin Todd Jealous, president and CEO of the NAACP, this book is a "call to action."</p> <p>Called "stunning" by Pulitzer Prize–winning historian David Levering Lewis, "invaluable" by the Daily Kos, "explosive" by Kirkus, and "profoundly necessary" by the Miami Herald, this updated and revised paperback edition of The New Jim Crow, now with a foreword by Cornel West, is a must-read for all people of conscience.</p>		978-1595586438	L3 Specialized Knowledge

You will learn how Mr. Fuller directly influenced the theories of Dr. Welsing. While Mr. Fuller asked What is racism/white supremacy? Dr. Welsing asked Why is there racism/white supremacy? 	They Came Before Columbus: The African Presence in Ancient America (Journal of African Civilizations)	Dr. Ivan Van Sertima	<p>They Came Before Columbus reveals a compelling, dramatic, and superbly detailed documentation of the presence and legacy of Africans in ancient America. Examining navigation and shipbuilding; cultural analogies between Native Americans and Africans; the transportation of plants, animals, and textiles between the continents; and the diaries, journals, and oral accounts of the explorers themselves, Ivan Van Sertima builds a pyramid of evidence to support his claim of an African presence in the New World centuries before Columbus.</p> <p>Combining impressive scholarship with a novelist's gift for storytelling, Van Sertima re-creates some of the most powerful scenes of human history: the launching of the great ships of Mali in 1310 (two hundred master boats and two hundred supply boats), the sea expedition of the Mandingo king in 1311, and many others. In They Came Before Columbus, we see clearly the unmistakable face and handprint of black Africans in pre-Columbian America, and their overwhelming impact on the civilizations they encountered.</p>		978-0812968170	L3 Specialized Knowledge
	Stolen Legacy: The Egyptian Origins of Western Philosophy	George G.M. James	2015 Reprint of 1954 Edition. Full Facsimile of the original edition. Not reproduced with Optical Recognition Software. James argued that Egypt was the true source of the Mystery teachings and therefore any claim to such origin by the ancient Greeks is not only dishonest, but must have been based on dishonest motives. "Stolen Legacy" was one of the first scholarly works that attempted to recover the "lost" history of early African civilization.		978-1614278344	L3 Specialized Knowledge
